Chat from the Chair:

Note that this ASQ904 Newsletter, "The Quality Times" is for November and December. So make sure you catch the details included for the two meetings and mark your calendars. I will send the e-mail reminder for each meeting, as usual, a few days before each meeting. I am cleaning years of accumulated quality files and I came across the following article. It encourages some important thinking, and can help persuade some to action. I obtained it from Art Bender, who was an active, lifetime advocate for quality, and president of ASQC 1955-56 (then called the American Society for Quality Control). He was instrumental in bringing modern quality practices to many industries. I pass it on to you in his memory.

Quality - Whose Job Is It?

This is a story of four people named Everybody, Somebody, Anybody, and Nobody

There was an important job to be done and Everybody was sure Somebody would do it. Anybody could have done it - but Nobody did it. Somebody got angry about that - because it was Everybody's job. Everybody thought Anybody could do it. But Nobody realized that Everybody wouldn't do it. It ended up that Everybody blamed Somebody when Nobody did what Anybody could have done.

(Author Unknown - Actually Somebody knows but Nobody will admit to it.)

Enjoy the Holiday Season and I hope to see you at the ASQ904 member meetings, November 17, and December 15.
